RE: Free Wills for Teachers

Dear Teachers,

GALLIAN WELKER & BECKSTROM, LC is one of the area's oldest and largest law firms and values public service to our community. I have been practicing Estate Planning in southern Utah for over eight years. We are pleased to partner with the Washington County School District to continue this legacy by providing wills for educators to say thank you for the diligent efforts and thoughtful instruction of our community's future, the children. These wills establish the fundamental components of an individual's estate plan. This service is being offered at no cost to the educators.

Availability for the 2016-2017 school year is limited to the first 30 educators who contact this office. The process will be as follows:

- Teacher confirms a date to sign documents at the GWB office.
- A questionnaire is provided to the teacher requesting information to prepare the will.
- Two weeks before the date, teachers fax in completed questionnaires to GWB.
- Signing Day, the teacher and attorney meet to sign wills to confirm details and make corrections where needed. The GWB office will provide legal counsel, witnesses and a notary public. Each visit will range from 10-15 minutes.

A teacher's spouse may participate in this estate planning offer. The spouse must complete his or her own form and submit it to the attorney's office. Due to limited resources, the service is available to those teachers who first contact me and confirm a date. I look forward to speaking with you and answering questions you may have. You may reach me at 628-1682 or matt@utahcase.com.
